LANGUAGES

- Bengali (native)
- English (fluent)
- Hindi (fluent)

HOBBYS

- Exploring global cinema and streaming content
- Staying informed on global and geopolitical developments
- Cooking

PROFILE

MCA graduate with hands-on experience in MERN Stack, Python, REST APIs, MongoDB, and Git. Skilled in building full-stack web applications, backend services, and database-driven solutions. Familiar with AI-powered applications and system design, with a strong passion for developing scalable, reliable, and user-focused software products.

WORK EXPERIENCE

Training and Internship Program 2022 with feuchr-School Of Excellence Pvt. Ltd. 07. 2022 - 08. 2022

Feuchr-School Of Excellence Pvt. Ltd.

Learned to build and deploy a machine learning-based predictive model and can contribute by supporting data-driven application

Xpro Project - Cybersecurity: Security Testing of a Vulnerable API, by Employability.life & Federation University 05. 2025 - 09. 2025

Employability.life & Federation University

Performed security testing on a vulnerable REST API, identifying common vulnerabilities and analyzing mitigation strategies.

PROJECTS

cHat BoX(Mejor_project on BCA)

2023

<https://github.com/Avijit-roy/Chat-box>

Built a full-stack real-time chat application (Chat-box) with user authentication, friend discovery, and instant messaging, gaining hands-on experience in frontend and backend development, real-time communication, asynchronous data flow, and UI/UX integration.

<https://github.com/Avijit-roy/CropGuard-AI>

Developed an automated plant disease detection system using MobileNetV2 for deep feature extraction, generating 1,280-dimensional feature vectors from leaf images. Applied feature selection techniques (CFS, InfoGain) to reduce redundancy and improve model efficiency. Achieved 92% accuracy using optimized classical classifiers (SMO), ensuring scalability and computational efficiency.

<https://github.com/Avijit-roy/MemoryMap>

Intelligent video memory extraction system that automatically identifies and summarizes important moments from surveillance footage using motion detection, AI object recognition, and importance scoring.

<https://github.com/Avijit-roy/Picsta>

A full-stack Instagram-inspired social media app with real-time messaging, stories, reels, and OAuth — built with React, Node.js, Express, MongoDB, and Socket.IO.

TECH STACK

MongoDB, Express.js, React.js, Node.js, MERN Stack, Python, API Development, System Design, Database Management, Performance Optimization, AI Agents, Chat Agents, Voice Agents, OpenAI API, RESTful API, GIT/GITHUB, HTML/CSS/JS, SQL, SQL SERVER, BOOTSTRAP, RENDER, VERCEL, C, C++, PyTorch, TensorFlow, Docker

EDUCATION

Master of Computer Application Sister Nivedita University (SNU) DG Block(Newtown), Action Area I	2024 - 2026 70 %
Bachelor of Computer Applications Global College of Science and Technology (GCST) NH-34, Palpara More, Bhatjangla, Krishnanagar	2020 - 2023 77.4 %
Higher Secondary Education Board - WBCHSE R.C.B. Saraswat Mandir C976+JGR, Malanchapara, Nabadwip	2018 - 2020 74 %
Secondary Education Board - WBBSE R.C.B. Saraswat Mandir C976+JGR, Malanchapara, Nabadwip	2017 - 2018 65.5 %
